COMPANY OVERVIEW

Meriwani Technology was established as Meriwani Computers in Silemani city, late 1996. Then, it was re-established as a Technology Company in the UK and Iraq in 2011.

Since its establishment, Meriwani Technology Company has become stronger, bigger and much more experienced and professional in executing long-term contracts and projects.

Meriwani Technology now has reached out to all of Iraq and has completed projects all over the country.

Meriwani Technology strives for new technology with which it can serve its customers, in-turn be beneficial for the staff and customers.

MERIWANI TECHNOLOGY SERVICES:

1. Business Development based on Technological Solutions:

Resolving issues related to communications between departments or branches in different locations or cities.

2. Procurement and Installation of Security Products:

It covers all types of security-related products, such as; CCTV, Speed Cameras, City-Wide Security cameras, Turnstiles and Access Control Systems for People and cars, Luggage scanning and People Systems for Airports.

3. After-sale servicing contract:

Monthly or annual servicing contracts based on the customers' needs.

4. Professionally designed AutoCAD maps:

Detailing Cable routes, Network Points, CCTV positions as well as pin-pointing any other devices installed by Meriwani Technology on project site.

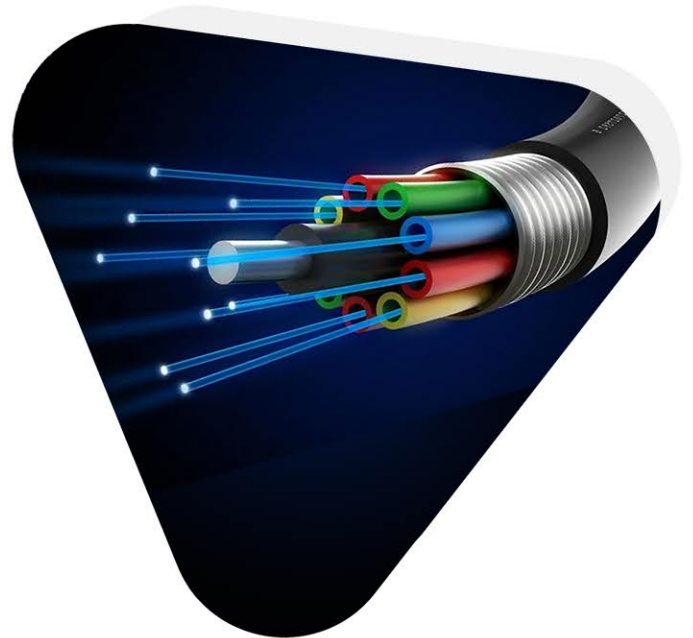

5. Connecting and Configuration:
